**Meet Academy
Award-winning
director of Icarus,
Bryan Fogel**

THE RENAISSANCE MAN

Scott Rodwin
*President of Skycastle Construction and
Principal of Rodwin Architecture*

- 1. Best part of being an architect?** Making functional art on a large scale that supports lives and is beautiful to look at.
- 2. Personal philosophy?** The lens through which I filter my decisions is BASIC: balance, awareness, simplicity, integrity and compassion.
- 3. A team approach:** It would have been impossible to accomplish what I've accomplished without an extraordinary team around me.
- 4. Daily motivation?** I'm addicted to creativity. If I see a problem, I can't stop myself from trying to solve it.
- 5. Outside of work...** Beyond being an architect, Rodwin is a father, artist, inventor, Professor of Green Building at Naropa University, Founder of Nomad Cohousing and a professional dancer.

Hats off to the Chief

ON GROWING PAINS, LESSONS LEARNED AND FINDING BALANCE: HOW BOULDER'S OWN MOVERS AND SHAKERS HAVE FORGED UNIQUE PATHS TO SUCCESS.
